

1. Title: **Anthropology**

2. Summary of Goals—Learning Outcomes:

Students should be able to:

- Compare and evaluate the holistic four-field nature of anthropology and the concepts and integration of culture and biology as used by contemporary anthropologists.
- Demonstrate an awareness and appreciation of cultural diversity enhanced by a holistic perspective on culture as integrated, dynamic, and embedded in broader processes of intercultural connection and globalization.
- Explain culture as a dynamic system of adaptation through knowledge of major cultural developments through time and across the globe.
- Describe the methods of data collection and evaluate interpretations by applying skeptical inquiry and the scientific method.
