### STATEMENT OF RESIDENCE

Per 5 CCR § 54012, each community college district shall use a residence questionnaire in making residence classifications. This document is used to gather information for the purpose of making a residency determination for persons who are not otherwise precluded from establishing residency who have:

- Returned to California after a temporary absence or break in residence.
- Persons who are or were active duty military or military dependents.
- Persons who are minor dependents or legal financial dependents of a California resident.

Legal residence is established by a combination of both intent and action. Each person has one and only one legal address. It is the place to which one returns in "seasons of repose". In order to establish your legal residence for the purpose of attending a California public college or university, please complete this form and return it to your respective college's Admissions and Records Office.
