

## Veterans Day Celebration Poem

**During this Veteran's Day holiday time  
Everyone in the military is on our minds  
Especially the veterans who did their share  
Protecting us in America everywhere  
By serving our country away from home  
Away from family and friends and feeling alone  
And on this special day you're in our deepest thoughts  
For being on the battle front where wars were fought  
To keep us all safe and our country strong  
All through the day and all night long  
We're so proud and thankful you did your part  
So, we thank you from the bottom of our hearts  
For showing America how much you care  
Sacrificing for us each day way over there**
